

# Oregon Region Relay Council, Inc.

---

The ORRC, Inc. is the frequency coordinating group for the State of Oregon and SW Washington. This June 2009 list does not include coordinated frequencies such as packet, linking, and closed repeaters, and is pulled from the ORRC database as 'published'. Failure to indicate on the Technical Data Form that you want your repeater published, or an indication that you want the repeater closed will prevent your data from reaching this list. This list of coordinated repeaters includes entries that have been updated in the last three years. Failure to update coordinations for more than three years puts the sanction at risk of de-coordination per the bylaws of the ORRC, Inc. This list is generated from the data that the ORRC submits to the ARRL annually for the ARRL Repeater Directory.

While every attempt is made to provide accurate data, the ORRC can only provide information that has been provided to us. It is the coordination holders' responsibility to update any parameters using the annual update form. If you are a coordination holder and feel that your data is in error, please contact your region representative and ask for a coordination update form. Please correct any data on that form that is necessary and return it to the ORRC for processing.

The ORRC board is comprised of representatives from the various regions of the State that are elected by the repeater owners in the specific regions. Additionally there are five 'at large' members elected to represent the membership at board meetings. The ORRC is governed by the bylaws as created and accepted by the general membership, and operates according to the policies and procedures for coordination as published on the website. The ORRC, Inc. is a non-profit corporation in the State of Oregon and is the certified coordination agency for Oregon and SW Washington with the National Frequency Coordinators Council, Inc.

Information on the process of coordination, policies, band plans, forms and membership in the ORRC are provided on the website at: [www.orrc.org](http://www.orrc.org)

*Daron J. Wilson, N7HQR*  
Chairman
