The August 14, 2005 Operations minutes were approved without correction.

- 1) Leroy Hendrickson K6LQT 229 NE Atlantic St., McMinnville OR 97128

Three applications:

70 Cm repeater 442.550 Vertical omni, 5 db, 100wtx / 300w erp.
Newburg OR, .
CTCSS to be 100.0 Hz

Proposed op date 10-1-2005. Closed system linked to internet connection at Amity Oregon on 70cm

Approved as submitted.

900 MHz link application

This application changed by request of the applicant to the 70cm Band.

10db yagi at Amity OR, 10 AGL,
--- 12w tx / 50w ERP.

CTCSS to be as specified in TDF Horizontal polarization

Approved as revised to 70cm Band

900 MHz link application

This application changed by request of the applicant to the 70cm Band.

10db yagi at Newburg OR, 10 AGL,
--- 12w tx / 50w ERP

CTCSS to be as specified in TDF Horizontal polarization

Approved as revised to 70cm Band

=====
2)
Tom Apel K5TRA 3144 NW Chapin Dr., Portland OR 97229

Technical Data Form for a request for coordination for a repeater on the 440 MHz band. 5db vertical TX antenna, 50w TX out, antenna 50' AGL.

Site to be located at Portland.

Approved for 440.075, Tone required, he may choose tone frequency.

=====
3)
Loren Flindt KB7APU 205 NW 111 Loop Vancouver WA 98685

TDF application to move 224.72 repeater to Larch Mt WA. ant 60' agl.

Approved as submitted.

=====
4)
Joel Determan K7TGZ 4130 SW Crestwood Dr. Portland OR 97225

TDF application for a 146.800 MHz repeater near Silverlake, Oregon 6dB omni, 100 watts out / 270 watts ERP, CTCSS 100.0 Hz.

antenna 27' above the ground.

Approved with following requirements:

- 1) Authorized for a 6 month Special Temporary Authority to allow testing for interference.
- 2) Required to submit channel sharing agreements from W7FLO, Florence; WA7SDV, Tollgate; & KJ7IY, Portland.
- 3) System is on the air as of approval date
- 4) CTCSS Tone required to be 103.5 Hz.

=====
5)
A letter from the Salem Repeater Assn. - SRA - in regards to the co-channel letter request by the Amateur Radio Relay Group - ARRG - for the 145.33 MHz repeater in Pendleton, Oregon.

The letter was determined by the Operations Committee to be not pertinent as it related to users outside the stated service area of the SRA repeater. The ARRG repeater application for Pendleton is **postponed** to the next meeting, pending receipt of additional channel sharing documents.

=====

6)

Joe Burkleo WA7JAW 1050.5 N. Juniper Street, Coquille OR 97423

TDF for a 147.040 MHz repeater near Agness Oregon.

Antenna to be 75' above the ground. CTCSS to be 88.5 Hz

Transmitter power 50 watts out / 200 watts ERP.

One co-channel letter is referred to in a copy of an e-mail from Warren Winner of ARRG.

Reports

Treasurer -- Dan No report

Database -- Ron; The Board Confirmed updates for this year must be up to date to be published

Operations – Neil

Website – Daron/Dave. Discussed Dave Katz being unable to work on website.

Special Committee Reports

2400 MHz Band Plans – Ron/Joel No Report this meeting

Unfinished Business

2) Inverted 70cm project

The Board will process three inverted system decoordinations per meeting. Chairman Wilson will phone each of the remaining inverted system owners to explain how the ORRC will be proceeding. Those systems owners who ask for a hearing will be scheduled for one.

- 3) Web approval for non controversial coordination requests. Defining the criteria for this method of processing. (tabled at this meeting)**

Further discussions- (waiting for Web Site re-vamp)

- 4) Method for selection of new coordination holders for returned frequencies in high demand bands.**

Members voted for a pool list to be established, the Board may now determine how the process will work, with the selection made by chance drawing. We need to write down the process. Confirmed committee of Frank, Johnny and Dick will continue this effort. Tabled to next meeting

- 5) Example Co-Channel Agreements**

(Joel, Neil) Joel was to provide examples to place on the Web Site. Tabled to next meeting

- 6) Single sheet TDF**

Initial issue will be emailed to Board members as a test only. Mike H.

- 7) ORRC Web Site :**

Mike Mullarkey proposed a change of web site service provider. The Board voted to allow proceeding with a change to a different site author. Mike will report at next meeting on the progress.

New Business

- 1) Database Update Mailings-**

Update mailing will be done in November. Ron Polluconi will solicit volunteers as needed to assist.

- 2) Next Newsletter-**

This will be a separate mailing from the updates. Is there a Volunteer to edit and compile the newsletter? Contact Chairman Wilson to volunteer. Planned distribution to be in January, 2006

- 3) ORRC Database- Listing of Primary vs. Secondary- Non Interfering Status –**

Discussion of correspondence from Carl DiPalo on the addition of PRI/SNI to listings in the database. The Board confirmed the previous change of format for the database only. Chairman Wilson was to compose a letter in answer to Mr. DiPaulos' letter explaining that this was a decision of the Board of the ORRC.
